

Environmental Policy

It is the policy of Hargreaves Foundry to continually improve our environmental performance and where possible to prevent pollution at source.

We will reduce to a minimum the environmental impacts of our production activities and develop a proactive approach when taking into account our local community.

In particular we aim to:

- Meet or surpass environmental legal requirements.
- Minimize waste and consumption of fuel and energy.
- Foster a sense of responsibility for the environment amongst our staff.
- Provide staff with environmental training.
- Implement and maintain management systems to detect and correct any deviations from our environmental policy.
- Routinely review our policy, objectives and targets
- Communicate this policy to all employees and to make it available to the public.

Managing Director

Michael Hinchliffe
